UW-Genetics PhD Program

PD Plan for Approval by the Genetics PhD Steering Committee

Name: _____

Email: _____

Lab: _____

Year: _____

Provide an overview of your planned activities

Describe any mentors beyond your thesis committee who will be involved (e.g. instructors for courses, internship supervisors) and how you will interact with them.

What are the specific goals of your planned activities and how do they relate to your career objectives?

What are open questions that you hope to get answered during your PD activity? What is required for you to get those questions answered?

Provide a detailed description of activities, timeline, and estimated time (hours) dedicated to each activity.

How will you evaluate your PD experience? How will you decide if it was successful?
